

# inVision

A nearly invisible light source from a slim profile, inVision's efficient design projects all the light it creates. Choose inVision Plus for even greater luminous flux and power, or inVision Sys for made-to-measure profiles and extensible systems.

With the latest Bartenbach GmbH technology in a modular system available exclusively through O/M, inVision is discreet, general lighting for home, office, retail, hotels, and anywhere that can use great light distribution.

# inVision

## Body

Aluminium perforated cover plate and profile (inVision Sys) with 25 micron maximum corrosion resistance anodisation with electrostatic 100% polyester paint with textured-finish suitable for adverse climate conditions.

## Optics

Focal-lens with complex surface and individual surface ribs to provide a focal point through an aperture for glare free area illumination.

## Modules

O/M LED modules with excellent colour consistency (3 step-MacAdam) and long operating lifespan (>50.000h; L80/B10). Light Output Ratio up to 79%. Also available in Tunable White 2700K to 4000K.

## Accessories

Fitting accessories for different applications are available.

## Dimmable

Controlling intensity is easy using a DALI dimming system.

# inVision Sys Planning

This system is easy to configure and can be planned in just a few steps.

1

Components. Check all the components you need.

- A** Recessed aluminium profile.
- B** LED light source modules available with different sizes and characteristics.
- C** Blind modules available in two sizes (**opcional**).
- D** End caps for each end of the line.
- E** Recessing fitting accessories for installation of the luminaire.
- F** Concealed connections between profiles.
- G** Safe and easy electrical connections between LED modules.

2

Light Source Modules.

High-efficiency O/M LED modules up to 115lm/W.

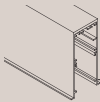

3

Measure, calculate and design the luminaire.  
Use the formula indicated below to determine which modules best match your requirements. You will find all the lengths available on the modules page.

	Recessed
	M + 11mm
M Sum of the lengths of the light source modules.	

4

Choose the finish. To select the required finish, add the finish code to the end of the profile and end caps code.

Profile		Finish		Final code
	50001	+	.01	= 50001.10

# inVision Sys

Glare free luminaire with extremely reduced thickness that allows to integrate modules that don't emit light (blind modules).

This system is a versatile solution for creating a customised luminaire.

The flexibility of this product is reflected in the possibility of choosing different layouts.

The system components must be selected according to the geometry required.

LED CRI>80, 2700K>90 / >50.000h, L80/B10 / 3-step MacAdam

Power supply included.
